Project Website Publication

The VeriDream website has been published at www.veridream.eu. The overall structure of the website has been designed by GoodAI and DLR and has been implemented by GoodAI. As the project progresses, the subpages of the website will be updated as follows.

About

This subpage currently contains an overall description of the project. In M6, we will add 3 to 4 sample use cases and methods to this page, using the content from D1.1 and D2.1.

Consortium

Descriptions of the members of the consortium have been included here. This subpage is not expected to change during the project.

Publications

The list of publications is maintained by the Scientific Manager in a central repository. The list of publication on the website mirrors the list in this repository, and will be updated every three months.

Deliverables

This subpage contains a list of the public deliverables of the project. These deliverables will be added as soon as they have been accepted.

New/Events

As with the publications, a list of press releases and press mentions is maintained in the central repository. This subpage mirrors this list.
